

## CEN-PE-CO MOLY CHAIN LUBE

A superior, extreme pressure lubricant specially designed to extend the life of roller chains used on farm machinery and other heavy-duty equipment.

### OUTSTANDING FEATURES AND BENEFITS:

Penetrates to internal surfaces where lubrication is needed, then thickens to carry heavier loads.

Contains molybdenum disulfide to lubricate even under loads that rupture the oil film.

Contains SoyLube™ for its superior lubricity and viscosity index

Extremely adhesive to resist throw-off and washout.

Contains powerful extreme pressure and anti-rust additives.

*Cen-Pe-Co is proud to promote soy-based products in support of American Farmers.*

### APPLICATION:

Apply to the slack strand on the inside of the chain loop.

A Cen-Pe-Co Sure Shot Sprayer with an extension nozzle is recommended for tight places that would otherwise put hands dangerously close to moving parts.

### CONTAINER:

1 Quart Dispensing Bottle (12 per case)

### TYPICAL CHARACTERISTICS:

#### Viscosity:

Before dilution 86 SUS @ 210° F. (SAE 50)

After Dilution 77 SUS @ 77° F. (SAE 30)

Density: 7.5 lb/gal

Specific Gravity: .90

Color: Gray

Additives: SoyLube™

Molybdenum Disulfide

Extreme Pressure

Tackifier

Rust Inhibitors

Demulsifiers
