

CEN-PE-CO BAR & CHAIN OIL

A superior lubricant to lengthen chainsaw bar and chain life.

OUTSTANDING FEATURES AND BENEFITS:

100% pure paraffin base oil provides superior film strength.
EP additives reduce wear and prolong bar life.
Special additive inhibits gummy build-up.

DISCUSSION:

Most bar and chain oils are manufactured by adding tackifier to a reclaimed oil, flush oil, or line wash. Such products appear very inexpensive, at first.

Cen-Pe-Co Bar & Chain Oil is manufactured from the same 100% pure paraffin base oils used in our heavy duty motor oils and gear lubes. Its superior film strength and lubricity reduce wear.

This base oil is fortified with extreme pressure additives, anti-wear additives, anti-rust and corrosion additives, an additive to inhibit gummy buildup, and a tackifier. The result is a superior product that reduces bar temperature and wear and prolongs chain life.
